ABOUT

Welcome to Resumes for Mom. An initiative that strives to help single parents with their job prospects through free aid with resumes, cover letters and interview skills.

Don't let the name fool you we take single parents regardless of gender. The title was inspired by a mom that needed resume help. Services are all offered online or over the phone and are by appointment only. Please contact us today and we'll be happy to meet with you.

THE SERVICES

Our services are flexible because each client has a unique life and schedule.

Here's a list of our services:

- A quick resume edit
- A resume consultation
- A quick cover letter edit
- A cover letter consultation
- Interview prep
- Interview practice

What's the difference between an edit and consultation?

If you need someone to simply do a quick review of grammar and spelling that is an edit. If you need an entirely new resume or need to learn how to create a resume you will need a consultation. Same thing applies to cover letters.

What's the difference between interview prep and interview practice?

Interview prep is where we advise you on how to prep for your interview. We can go over the place you're interviewing with and discuss interview tactics. An interview practice is where we'll set up a mock interview and ask you questions and go over what a formal interview experience will be like and how it might go.
